

THE Gleichen Call

TWENTY-SECOND YEAR NO. 34

GLEICHEN, ALBERTA, WEDNESDAY NOVEMBER 21, 1928

SUBSCRIPTION \$2.00 PER YEAR

ALBERTA LEADER C. G. I. T. HERE FRIDAY, NOV. 23

Miss Mable Nix, C. G. I. T. leader for the province of Alberta will visit Gleichen on Friday, Nov. 23rd.

A meeting of the mothers of the C. G. I. T. girls and all ladies of the town and district interested in girls will be held in the United Church at 3 p.m., Friday, November 23, when Miss Nix will address the meeting.

At 8 p.m. all C. G. I. T. girls and their leaders are invited to meet Miss Nix at the United Church Manse. This is an opportunity for both the girls and mothers to meet Miss Nix, who is an outstanding leader in girls' work in this province.

SUTERMEISTER-MILJOUR

A pretty wedding was solemnized in the Anglican Church, Clearwater, Manitoba, on Saturday, November 10th, when Mildred Wilhelm, eldest daughter of Mr. and Mrs. Alfred Miljour was united in marriage to Mr. William Sutermeister of Gleichen, Alta. To the strains of Lochengrin's Bridal Chorus, played by her sister, Miss Olive Miljour, the bride entering the church on the arm of her father. She wore a tailored model of silk ottoman cord, showing a vest hand painted in silver and gold. Her hat was of metallic cloth and beige velvet. A brown fox fur completed the costume. Her bouquet was of carnations, lily of the valley and fern. The bridesmaid, Miss Enit Wall of Wellwood, wore a dress of peach georgette with silk lace and hat of metallic cloth. She carried a bouquet of carnations and fern. The groom was attended by Mr. Herb Sims of Snowflake, Man. During the signing of the register, Mrs. Speers and Mrs. Cranston sang a duet, "O, Perfect Love."

The groom's gift to the bride was a rope of pearls, to the bride's maid pen and pencil set, with her initials engraved in gold, to the best man, a pair of silver initialed cuff links. After the ceremony the guests assembled at the home of the bride where a dainty wedding breakfast was served. The happy couple left on an extended trip to the home of the groom's mother in Switzerland. On their return they will reside in Gleichen. The bride received many lovely gifts from her friends in Clearwater and Gleichen, where she has taught for the past three years in the Old Sun Indian residential school. The best wishes of all their friends go with them on their trip.

HOFFMAN-KE' STEIN

A very pretty wedding took place at the home of Mr. and Mrs. Rudolph Kerstein, on the evening of November 14th, when their daughter, Mary Martha, became the bride of Mr. Ferdinand Hoffman, of Claresholm.

The bride was given away by her father. She looked charming in a gown of white beaded georgette, a cap veil held in place by a wreath of orange blossoms and carried a bouquet of pink roses and ferns. Miss Lydia Kerstein, who acted as bride's maid, wore a dress of white silk. Miss Lydia Stewart, who was maid of honor, wore a gown of pink crepe-de-chene. The attendant carried bouquets of carnations and ferns. Mr. Lovell Stewart supported the groom. Mrs. Moore played the wedding march. The ceremony was performed by Rev. Zeigler of Claresholm, in the presence of a hundred friends.

After the ceremony the wedding supper was enjoyed. The evening was spent in music and games. The couple were the recipients of many beautiful gifts. After the couple received the good wishes of their friends they left on the morning train for Calgary. They will make their home in Claresholm.

Adj. Norberg, of the Salvation Army Eventide Home, left Friday to attend the annual Salvation Army provincial congress at Edmonton.

Growing Trees

The last few years have brought about a great change among the prairie farmers in regard to tree planting. Mr. Norman Ross, superintendent of the Government tree farm at Indian Head, Sask., states that last spring there were 13,300 applications listed for trees, an increase of 3,200 over the year before and Mr. Ross states further, that the capacity of the two nurseries at Indian Head and Sutherland have practically reached their limits.

It is not only shade trees that is wanted but the various nurseries are also taxed to their limit trying to supply the demand for shrubs, big and small fruit trees and flower bulbs.

Based on my own experience I want to give a little advice to those who intend setting out nursery stock and particularly fruit trees. It is an absolute fact that trees grown from tender roots shipped in from the east or from B. C. are not as a rule, hardy enough for our climate and during some of our peculiar Alberta winters they will go back or kill out altogether and by buying and planting the tender stuff the farmers are throwing away their money. The same is the case with most of that imported from across the line south of us. Nurseries are supposed to grow and graft their own trees and some of them do, but there are some who yearly import whole carloads from the States. It is no doubt an easier way and perhaps much cheaper, but the buyers get stung.

The would-be planter should therefore try to obtain his nursery stock from the nearest possible point to where he lives, if he can get it, or at least, be reasonably sure that it has been grown on hardy roots.

With the object in view of growing some nursery stock that would be native and hardy for this particular district I have made a small start and can supply a limited amount of certain things for planting out next spring and those interested can obtain a list of prices by writing me or phoning. In shade trees I have some very fine large three-year-old caragana grown from my own seed, some maples and ash. Some purple lilacs, Sunbeam raspberries and Senators, Dunlop strawberry plants. I have so far had little success with ever-bearing strawberry plants. In flower bulbs I have a lot of fine pure white phlox, yellow and blue trees, hollyhocks and sweet williams, rhubarb roots, both Columbia and McDonald.

Early this fall I made a trip to the nursery in Northern Manitoba, up towards the Hudson's Bay line, one of the biggest and surely the most northern nursery in western Canada. This is the place where I have bought my own fruit trees that have turned out so well. From the many sorts of fruit trees growing there I selected four of Prof. Hanson's hybrid crabs, Dolgo, Prince, Tony and Garret as these looked to me the best and I have the same kind growing and bearing fruit in my own garden. I also selected a number of plum trees that have done well at my place, such as Capata, Sapa and Cherry. These trees have been shipped to my place this fall and headed in for the winter and every one of these are grafted on hardy native roots grown in that far northern Manitoba nursery.

The early frost in August this year which raised havoc with the grain, put my fruit to a severe test from which the trees came out without a scratch. All the apples and plums named above came through fine and I think a little frost improves the taste of the Opata plums. I did have some later sorts of plums, still green when the frost came and they were hurt, hence they are not suitable for this country.

JOHN GLAMBECK.

The ladies of St. Victor's Church are holding their annual sale of work and what drive on Friday, November 23, to which all are invited.

Preparing for Old-Timers

The various committees in charge of the Old-Timers Ball on December 7th, are now all hard at work and daily accomplishing splendid results in their several lines.

While one and all are invited to attend several hundred invitations are being sent out and already the indications are that several real old-timers from a distance will be present, who have not attended the previous occasions.

The orchestra lead by Art Bremner will be expected to be bigger and better than ever. And all the old time dances will be rendered, starting off sharp at 9 o'clock with the "Grand March."

Not a few novel features will be introduced this year that at present are being kept in the dark. For instance you will want to see what becomes of the young pig O. Desjardine has generously donated.

For those who cannot trot every heat special attractions will be provided in the Club Room upstairs. There will be ample time to meet your old friends and talk the good old days all over once more—live it over.

You can eat just whenever you want to. The dining room will be open from 10 p.m. and remain open till all are fed.

The intention is to make this dance the best of all its predecessors and those who miss it will have cause for regret.

Bishop Sherman's Address at Gleichen Monday Noon

The luncheon under the auspices of the Canadian Club and Board of Trade, to be addressed by His Lordship Bishop Sherman, will take place in the Community Hall at 12:30 noon, on Monday, November 26th. Tickets

at 75c each may be obtained from Messrs. D. Hutcheson or L. Cuthbert, or any member of the executive of both bodies. The sale of tickets will close on Thursday, Nov. 22nd. The subject of the address will be "Ideals of Citizenship."

Town and District News

The big event of the year—Dec. 7, accompanied by Col. Sims of Winnipeg, who is men's social secretary for Western Canada.

Col. Knott of Australia, who is on his way to London, Eng., was a visitor Friday at Eventide Home. He was

The local painter and decorator, Frank Tweed, who has been suffering from an infected eye, is now convalescing in Mrs. Cock's hospital.

Several more cases of scarlet fever are reported and two at the Blackfoot hospital. The quarantine has been lifted from several families.

The St. Victor's Church annual sale of work and what drive next Friday, Nov. 23rd, promises to be bigger and better than ever.

The secretary of the Gleichen Canadian Club has received a telegram to cancel the address of J. McDougall which was to have been delivered on Nov. 28th.

Every branch of farm work machinery, stock, etc., has an expert writer in the Family Herald and Weekly Star, the recognized first writers in Canada.

The catalogue fends are all busy advertising their Xmas wares and our local men should all be busy. So far the Call has refused mail-order ads. but it is up to the local folks to keep it that way.

Mr. and Mrs. Ben Wishart and their two daughters motored to Gleichen Sunday from Redlands. It is their first visit here for quite a few years and the few old friends they

met were very pleased to see them all looking so well. Ben is looking better than ever.

Alberta has taken a commanding lead among the western provinces in the number of homestead entries for the nine months ending September 30, 1928. Homesteads to the number of 9,533 have been filed on in the four provinces during that period, as compared with 4,605 in the corresponding months of last year. Of this number, homestead entries in Alberta totalled 5,476 as compared with 2,081 in the same time last year. While this figure includes a number of second homestead applications under the new regulations, it is stated that the great majority represent new settlers who are taking up land to establish homes in the province.

Last Thursday night a genuine old-time surprise party of Gleichen folks journeyed north to the home of Mr. and Mrs. David McBean and caught them entirely unprepared for the visitors. However, they proved royal hosts, and a most pleasant time was spent with cards, old-time dances and music supplied by radio and after the violin and Mrs. Lewis on the piano. Art phoned the radio office in Calgary and at his request over the radio came some real old time dance music including a Scotch reel, which was most thoroughly enjoyed. The radio announcer stated that these items were given by the request of Art Bremner for over 220 guests at a dance at Mr. David McBean's home near Gleichen, which was slightly over the number, but those present made up for the lack in "hoeing 'er down." The party finally broke up after 2 a.m.

Get your ticket early for the luncheon and Bishop Sherman's address for next Monday noon.

ECHOES OF GLEICHEN TWENTY YEARS AGO

Taken From The Gleichen Call, 1908

Skating is now the main pastime.

A. R. Yates spent several days the past week visiting his sister at Banff, returning Tuesday.

John Finnigan was in town last week from Red Deer river for the first time since last April.

R. W. McKie, manager of the Bank of Commerce, was ill a few days last week, but is about again.

Little Charlie Jones, who was kicked by a horse at the track Monday, is now none the worse for his adventure.

Mr. and Mrs. J. O. H. McCoy left last evening for his home in Victoria, B. C., where they will reside in future.

Geo. Smith of Queenstown was in town Tuesday purchasing material for his new house. What is going to happen, Geo.

J. M. Telford has almost completed another block on Fifth Avenue, which will be occupied as tinmith and blacksmith shops.

J. A. MacDonald came up from Suffield Monday to take in the Thanksgiving dance, returning home on No. 96. His many friends here are in hope that he will be our next agent, vice H. R. Cory.

The ferry on the Bow River has been moved down the river to near the South Camp Mission. It will be sometime before it can be put in operation as it is said some piling will be necessary to make a good job of it.

Rev. Lynd and A. D. McDonald spent from Friday till Monday the guests of Robt. Brown at Queenstown and report having had a fine outing. They took in a box social at Macomber's school house which proved a grand success.

The Gleichen Mercantile Co. is another new concern that will shortly be doing a general store business in this town, in the Henderson block, on the corner east of the Call office, with H. R. Cory as manager. He has tendered his resignation as the local agent for the C. P. R.

Harold Birch has got an appointment under Dr. Rose at the Blackfoot hospital and he left town on Monday to take up his new duties. While in Gleichen he made himself familiar with every person, and was a useful fellow, especially in sickness. Harold will be missed by many. The church bell will miss him sadly, for Harold and the bell were all but inseparable, yet the best of friends must part. If bells could shed tears St. Andrew's bell would surely weep, yet it is a comfort to know that our old friend is not far away in case the bell refuses to take kindly to a stranger.

WORLD HAPPENINGS BRIEFLY TOLD

China has invited the Royal Netherlands, Indies air lines to organize a flight to Java and China. The flight is expected to take place early in 1929.

The Dairy Federal Department of Agriculture reports that for the eight months ending August 31, Canada exported milk and milk products to the value of \$18,482,518.

A chair and couch, once the property of Sir John A. Macdonald, Canada's confederation premier, were sold for \$3.50 each in a Toronto auction room.

The British Columbia government exhibit for the Royal Winter Fair, consisting of fruits, vegetables, grains, grass seeds and other farm products weighed nearly 14 tons.

Lord Byng, as executor, gets \$1,000 under the will of Lady Byng's uncle, Pandell Ralli, while Lady Byng herself gets the bulk of the fortune of \$557,000.

As another step towards augmenting its new western service, the Western Canada Airway Ltd. have placed two monoplane in operation on its prairie passenger and express line.

The Japanese war office has asked for an appropriation of \$2,750,000, spread over a three-year period, for use in perfecting air defenses at Kyoto, Osaka and Northern Kyushu.

The post of American ambassador to England may be offered to Myron T. Herrick, present United States ambassador to France, according to an unconfirmed report circulated in Paris.

The treasury board and cabinet council having approved the absorption of the Standard Bank of Canada by the Canadian Bank of Commerce, on recommendation of the minister of finance, the Standard Bank has gone out of existence.

Loud Speaking Airplanes

New Form Of Advertising Making Cities More Noisy

The advance of aviation has brought with it one development that cannot be regarded with equanimity. In New York certain airplanes equipped with loud speakers fly over the city and indulge in outdoor advertising at its worst. Voices from these flying loud speakers bawl forth the merits of this or that face cream, movie, cigarette or what-not in a manner that can be heard all over the town. There is no escape from it. Any one in the streets below gets this raucous appeal to buy drummed into his helpless ears, whether he likes it or not.

Our cities are noisy enough now. It might be a good thing to see if the statutes governing public nuisances cover the case.

Professor A (in high-powered car careering madly round a bend) — "We've got it at last."

Professor B — "G-g-got w-w-w what?"

Professor A—"Perpetual motion. I can't stop this car."

A Hemisphere Of Water

Area Of Pacific Ocean Is Seventy Million Square Miles

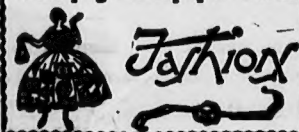

The immensity of the Pacific Ocean is seldom realized. Huge and terrible as is the Atlantic, its size compared with the Pacific is about the same as a farm pond with Lake Ontario. The Pacific is almost a hemisphere of water, and it is startling to think that, if the whole land surface of the globe could be fitted together like a jig-saw puzzle, the resulting surface would not be as extensive as this one ocean! A few figures will show this. For instance, the well-traversed Atlantic route from Liverpool to New York is 3,050 miles, but from Yokohama to Valparaiso, a similar southern trend, across the Pacific, the distance is 9,340 miles. Across this ocean's narrowest part, from Vancouver to Yokohama, is 4,260 miles. The Pacific stretches from the Arctic Ocean to the Antarctic Ocean, and contains seventy million square miles of area. In this vast area are tens of thousands of islands, some little larger than a farm coral, and others which would be called large elsewhere but are dwarfed by their situation.

One Cause Of Failure

Tendency To Let Things Drift Usually Means Defeat

The more common secret of want of success in life is a tendency to let things drift. It is not so much the missing one opportunity, or the committing one blunder, as the lavish waste of all the forces—opportunities which in various shapes come within the grasp. It is the slovenliness of men and women which for the most part makes their lives so unsatisfactory. They do not sit at the loom with keen eye and deft fingers but they work listlessly, and without a sedulous care to piece together as they best may, the broken threads. We are apt to give up work too soon, to suppose that a single breakage has ruined the cloth. The men who get on in the world are not daunted by one nor a thousand breakages. — John Morley.

Winnipeg Newspaper Union

For School Hours

A sophisticated model for the growing girl of 8, 10, 12 and 14 years, who adores to wear clothes that are quite as smart as her elder sister's. This practical little dress of bright plaid woolen with velvet collar is chosen by the younger fashionables for school hours, because it is so comfortably warm, and smart at the same time. It is a one-piece affair, tucked at shoulders and low waistline, with an inverted plait inserted at centre-front to supply extra fulness for activities of youth. It takes but 1½ yards of 40-inch material with ¼ yard of 38-inch contrasting to make Style No. 306 for the miss of 8 years. Patterned wool jersey, plain jersey, homespun, velveteen, wool crepe, tweed, wool broadcloth and chambray also appropriate. Pattern price 25 cents, in stamps or coin (coin is preferred).

Only One Chance In Thirty-Six Billion

Farmer In Manitoba Loads Wheat Twice In Same Car

There is one chance in thirty-six billion of it happening again. At the town of Argue, Manitoba, on September 20, a farmer named C. R. Somerville, loaded part of his crop of Number 2 Durum into Canadian National Car No. 423871. The car went to the head of the lakes, was emptied and started west again. On October 1, eleven days later, it left the same station, Argue, loaded with grain from the fields of the same farmer, C. R. Somerville. This time the wheat was Number 4 Durum, but the car was the same and the farmer was the same.

T. P. White, Canadian National Railways' superintendent of car service, thinks the incident is a reflection on the smoothness with which the great machine of grain transportation, handling millions of bushels, is running. But he realizes that it will never happen again in his lifetime.

From statistics as to the number of box cars and shipping stations in the west, and taking an average of 75 farmers who might possibly load at a point like Argue, it has been calculated that there is one chance in thirty-six billion of a car going back to the same shipper at the same point.

Badger Skins Are Valuable

Pelts Should Be Taken In The Right Season, However

Badger skins, if taken off animals at the right season, and not spoiled in handling, are now quite valuable. At the recent fur auction in Winnipeg the best badger skin sold for \$52.00, and a good average skin is worth, perhaps, about \$20.00 to \$25.00. But many people are taking these pelts during the late summer and fall, when the skins are worthless, or practically so. Badger skins are most valuable after the animals have come out of their winter retirement. Skins taken in the spring are valuable; those taken in the fall are almost worthless. About twenty-thousand badger skins are marketed annually in the three Prairie Provinces.

Prominent Health Officials

Four prominent Canadian health officials have been appointed to the Connaught Laboratories Fellowships in the School of Hygiene, of the University of Toronto. They are Dr. R. B. Jenkins, Edmonton; Dr. F. W. Jackson, Winnipeg; Dr. F. S. Leader, Battleford, Sask.; Dr. Eva Mader, Kentville, N.S. The fellowships were established last year for the purpose of increasing the number of public health workers in Canada.

Proof Enough

Scene: A Glasgow railway station. Old Lady (for the twentieth time): Is this really the train for Ayr?

Porter: Well, mum, the board of directors, the stationmaster, the signalman, the guard, the driver, and myself think so, so I suppose it must be!

A Snappy Comeback

Mum—Forgot it!—huh! Halfways forgettin', you are! Tell you men anything and it goes in one ear the hout the hother. Dad (stung to protest)—Tell you women anything, and, by gum, it goes in both ears, and never stops coming out your bloomin' mouths.

Husband (reading latest about radio-television): "My word! This opens up some wonderful possibilities, dear."

Wife—"Yes, my love! Won't it be nice for me to be able to sit here and watch you working in your office when you're kept there at nights!"

Many Lacemakers Do Work Underground

Room Must Be Damp To Preserve the Thread

Almost every country in Europe knows something of the delicate art of lacemaking. Egypt also knew it, and other peoples of the Orient. Italy was probably the first to make the almost priceless needle-point, from flax thread so carefully spun that an ounce is worth \$2,000. Of the same thread; though less fine in texture, was made the beautiful Valenciennes lace so greatly prized by Marie Antoinette and her high born milkmaids. The finest needle point is done with a thread of cobweb thinness, the pattern drawn on parchment. Finest laces are still made in damp underground rooms, to preserve the thread, only one ray of light being admitted, to fall directly upon the work. Among the church treasures of France and Italy are beautiful altar cloths and other laces, which the visitor is often told, are the work of nuns and devoted women who plied their needle in dark and dampness underground until they became blind or died of consumption or some kindred disease.

Irish crochet is made under more cheerful circumstances, by peasants sitting at their cottage doors. The work is done with very fine hooks and hard-twisted cotton thread over a design drawn on cambric, the figures basted on and crocheted round.

Manitoba Mining Zone

Area Of 4,000 Square Miles Set Aside In Northern Part Of Province

The act passed at the last session of the Manitoba legislature creating a mining zone exceeding an area 4,000 square miles in Northern Manitoba, has been proclaimed, and is now effective. This zone has been created in order to protect smelting companies from petty litigation in respect to alleged damages to property from fumes from the smelters.

The Hudson Bay Mining Company may now proceed with the erecting of a smelter at the Flin Flon Mine. The zone also embraces the Sherritt-Gordon copper-zinc properties and many other mineral properties which are within its limits.

Took Draastic Measures

The fact recently has come to light that the very oldest newspaper in existence, or was, the official "Pekin Gazette," which is said to have been produced continuously for more than a thousand years. But this Methuselah among newspapers not only claims an honorable old age. It claims a record in martyrdoms as well. It is credibly stated that during its publication no fewer than 1,500 of the paper's editors have been executed. If this is correct, just imagine what the slaughter must have been among reporters.

Furnished Some News

"Look, Tita; something about me in the paper."

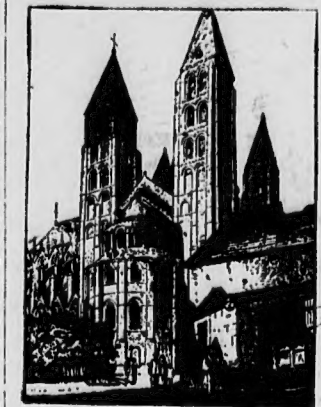

"Really? What does it say?" "It says, 'In the month of July the trolley company carried 15,738,526 passengers—well, I was one of them, wasn't I?'"

COMING OUT PARTY

Right Hon. Arthur Meighen, former prime minister of Canada, and Mrs. Meighen entertained at their Toronto residence, "Sevenoaks," in honor of their debutante daughter Miss Lillian. Mrs. Meighen is in a gown of beige georgette and lace and her flowers are yellow roses. Miss Meighen is in a frock of white taffeta, with a scarlet bow at the side and she wore scarlet velvet shoes and carried a great arm bouquet of red roses, the gift of her brothers. She also wore a pearl necklace, the gift of her father. In the drawing-room, where the debutante and the host and hostess received, were a great many gift bouquets, presented to Miss Meighen by the friends of her parents for her "coming-out" party.

CATHEDRAL THREATENED BY FLAMES

Fire broke out in the cathedral of Tournai, one of the finest Romanesque churches in Belgium, recently. The old cathedral, which was built in the twelfth century, contains a number of pictures by Rubens and other masters and a famous vestment, presented to it by Thomas A. Becket of England.

Northern Alberta Boys' and Girls' Swine Club

First Prize In C.P.R. Competition Is Won By Members Of Club At Willingdon

First prize in the Canadian Pacific Railway Competition in the Boys' and Girls' Swine Club show for Northern Alberta, was won by Parafte Lazuruk and Harry Strynadka, members of the Swine Club, at Willingdon, on the New Canadian Pacific Railway Cutknife-Whitford line.

Second prize went to Benny Flaada and Bernie Kobitzsch, of the Hardisty Club, and third, Thurston Smith and Erwin Berguf, of the Sedgewick Club.

Handsome medals were presented to members of the winning team by Superintendent George Fox, of the Edmonton Division of the Canadian Pacific Railway. Both members of the team are of Ukrainian descent and are sons of prosperous farmers in the district. Each of the boys is 17 years old. Strynadka is in grade ten at Desjardis school, and Lazaruk is working on his father's farm.

The Willingdon team will proceed to Calgary where they will compete with the winners of the Canadian Pacific Railway competition in the southern part of the province, for the trophy awarded to the highest scoring team from any point along Canadian Pacific railway lines in Alberta, and a trip to the Toronto Royal as guests of the railway.

Local officials of the railway companies, of Provincial and Dominion departments of agriculture and livestock interests, are well pleased with the successful results of the Boys' and Girls' Club work during the past season, and credit is given to these clubs for much of the improvement noted in recent years in the quality of hogs shipped to market from many districts in the province.

So that he who flies may read, printing the names of places on the roofs of high buildings in towns on the air lines is advocated for the guidance of aviators.

Losing Sense Of Speed

Fifteen Miles An Hour Considered Slow These Days

Has the speed rate at which vehicles now travel on the highways caused the loss of the sense of time and of speed? It seems that it has.

Thirty years ago a vehicle was considered as being driven quite rapidly when it covered the road at five miles an hour. Four miles an hour is quite a rapid standard for walking. Anyone walking in the dark who collides with another person walking, at even a more moderate rate, is unpleasantly surprised at the force of the impact. Yet neither person may be going at more than four miles per hour. Nevertheless, in the face of experiences so well known, we speak of fifteen miles per hour as a very slow rate of locomotion. But facts are facts, and things are as they are, all talk to the contrary notwithstanding.

Are jurors, and magistrates, and judges, and others, called upon to adjudicate on the facts of existence, justified when they regard a rate of fifteen miles per hour in a car accident as impossible to result in serious damage?

Let the experiment be seriously tried, and it will be found that, when two two-ton cars collide under such circumstances, the impact is tremendous. Drivers of cars should inform themselves upon such elementary questions.

Actual demonstrations have proven that serious property damage results when cars collide while proceeding even at five miles per hour. Let us regain our sense of speed and distance.

Recipes For This Week

(By Betty Barclay)

VEAL BIRDS

2 pounds veal steak (sliced about ½ inch thick).

Cut steak into six to eight squares, depending on the size of bird desired. Marinate with salt and pepper. Place a heaping tablespoonful of Piquant stuffing on each veal square and skewer securely using at least four skewers for each bird. Brown in deep fat first and then place in roasting pan in which frying fat has been poured. Add 1 cup water, cover roaster and let bake in slow oven for an hour. (Enough for six or eight veal birds).

A BRAND NEW RAISIN SAUCE

½ cup chopped nectars raisins.
2 tablespoons butter.
2 tablespoons flour.
1 teaspoon salt.
¼ teaspoon pepper.
Speck cayenne pepper.
1 tablespoon brown sugar.
1½ cups water.
1 tablespoon grated horseradish.
1 small lemon, juice only.

Heat food chopper in boiling water and put raisins through using medium cutter. Melt butter in saucepan, add flour, salt, pepper, cayenne, and brown sugar. Mix well, add water and cook until mixture is thick, stirring constantly. Add chopped raisins, horseradish and lemon juice. Serve hot.

Proves Old Theory Wrong

Dutchman, Not Germans, Are World's Heaviest Eaters

A census taken at a large hotel recently revealed the fact that Dutchman, and not Germans, are the largest eaters in the world. Though the gentleman from the land of canals and clogs does not eat quite so often as we do, he makes up for lost time at each of his two daily square meals. The average Dutch breakfast, for example, would make a very good dinner for a Britisher, including as it does hot meat and large quantities of cheese.

Germans spend most of their money on good wines, while the American likes more "showy" forms of amusement such as theatre-going, shopping at fashionable establishments, and motoring.

Boston Bans Jay-Walking

Great interest is displayed in Boston in the new rules framed with the intention of abolishing the habit of jay-walking. No pedestrian may cross a roadway at an intersection when directed to stop by a policeman. A \$20 fine is threatened for a violation of this rule. Every pedestrian crossing at a place other than a regular crossing must yield the right-of-way to any vehicle on the roadway, though it does not relieve the driver of the vehicle from the duty of exercising great care.

Strawberry Production

The largest proportion of Canadian strawberry production is consumed in the Dominion. In addition Canada imports about 3,000,000 pounds of strawberries annually.

Since ignorance is bliss it seems folly to establish night schools.

Canada's Pacific Gateway

Vancouver Rapidly Becoming One Of North America's Busiest Ports

Ships in the port of Vancouver took 80,000,000 bushels of last year's Canadian grain crop for export to markets abroad. It is estimated that Vancouver's share of the record harvest this year may be nearer 120,000,000 bushels. This splendid shipping business out of Canada's Pacific gateway has grown from 1,500,000 bushels in 1921. As fast as new elevator accommodation is made available, an increasing volume of wheat from Alberta and the western part of Saskatchewan is being poured into ships on the Pacific Coast. Much of it is carried south through the Panama Canal to Europe. Other grain-laden ships are heading out across the western ocean to Japan. Vancouver may well look forward with optimism to becoming one of North America's busiest ports.

In addition to attracting an increasing proportion of the present Canadian wheat crop, it is quite probable that Vancouver will become the port of a magnificent new expanse of farming land in the Peace River country, north of Edmonton. The Peace River flows across northern Alberta into Lake Athabasca. The farming country named after the Peace has an area of about 47,000,000 acres. It is, in part, in the same latitude as Scotland and Denmark. Some of the settlers in the Peace River country are raising wheat in crops of 70 bushels to the acre.

Manitoba Hydro Plan

Provincial Government Has Program That Will Extend All Over Province

It has been announced that the Manitoba Government is prepared to embark on a programme of Hydro-Electric power transmission line construction that will extend to all parts of the Province—to towns, hamlets, and farms—the Government to pay one half of the cost, including lines already built. Under this new policy there is a guarantee of sufficient power, very low rates, and revenue in the way of rentals for power sites. Thus, it has been stated on behalf of the Government, it is possible for the Government to undertake the bonusing of town and farm lines without incurring a dollar of capital debt; without the necessity of increased taxation, and without the risk of large annual deficits. This policy is designed to promote industries throughout the Province and to lighten the labor and increase the comforts of the farm.

Tomb Of Columbus Found

Mementoes Indicate His Burial Near Badajoz, Spain

A commission sent by the Academy of History to investigate what is claimed by some to be the tomb of Christopher Columbus, at Oliva de Jerez, forty-five miles south of Badajoz, Spain, reported that there were traces in the Church of Santa Maria Grecia, indicating mementoes of Columbus. The commission also stated that a number of stones had been found with the inscription: "Here lies Christopherus Sanchez Enriquez, Grand Admiral of the Oceans and the Lands by Him Discovered, born 1441." Enriquez is contended by some authorities to have been the real name of Columbus.

Crop Estimate

The Northwest Grain Dealers' Association estimates this year's wheat crop at 558,459,600 bushels, and that of other grains as follows: Oats, 317,714,800 bushels; barley 91,375,000; rye, 11,809,000, and flax, 5,079,200.

"What are you doing in that tree, professor?"

"I'm hanging myself."

"But you must put the rope around your neck."

"I tried that, but I could not breathe."

More than 2,000,000 women in Soviet Russia are members of trade unions.

CHAPTER IV.—Continued.

"Pretty near got 'im that time, Donnie!" cried Andy gleefully. "If you an get 'im to lift 'is jaw off 'is shoulmer, send in your right." Andy's hands were shaking with excitement, while Donald was cool and collected. "Let me go after him, Andy," he begged; "I can whip him at his own game."

"No, no!" admonished Andy, "keep on as you are. Don't try to swap punches with 'im!"

Garrieau's seconds were working over him feverishly. Pursell leaned over the heavily-breathing champion, his evil face sick with apprehension. "What'd I tell yer?" he exclaimed. "They've stuck a ringer in on us; dat feller ain't no amachoor! If he beats ya we're both bums! Foul him dis round, for de—" he finished with a savage oath.

At the beginning of the third round Garrieau charged his elusive adversary like a mad bull. Donald easily side-stepped him, and he plunged into the ropes. As he rebounded, Donald landed a left and danced safely away without reprisal.

"You can do pretty footwork," snarled the champion with a look of Simian ferocity, "but I'll get you, you—!" There followed a burst of wild cursing. He tried to rush Donald to the ropes, feinted for the wind, and let loose a powerful right for the jaw. Paying no attention to the feint, Donald ducked the blow and, countering, shot his left to his opponent's mid-section. The champion grunted aloud, fell into clinch, and hung on grimly. The referee pried them apart. Again the crowd came to their feet to shout in a frenzy of excitement.

Garrieau fell into a clinch, then wrestled about until he placed his opponent between himself and the referee. He loosed his right in a terrific upper-cut that missed, but his left smashed with fearful force to Donald's groin the most brutal foul that can be delivered. The referee did not see the blow.

Donald's nerves quivered with agony. A wave of torment and the awful nausea that follows such a blow swept through him. His face writhing with anguish, his gloved hand clutching his groin, he crashed forward on his face. His body twitched for a moment, then lay still.

The crowd came to their feet and many moved toward the exits. Another victim, they thought, to the champion's terrible punch. A number at the ringside, who had witnessed the foul blow, stood upon their seats and screamed denunciations at the referee.

The referee stood with one hand

on Garrieau's massive chest. The latter was lustfully straining forward while the fatal seconds were tolled off.

The roar of the crowd came to Donald's ears like the dash of waves on a distant shore. At the count of five his body quivered. At the count of eight, his jaw sagging, his face distorted, he struggled to his knees. He saw Andy's agonised face as through a fog and heard his desperate cry of appeal.

"Up, Donnie! Up!" At the count of nine Donald's bunched muscles answered the call of his brain. With tremendous effort he staggered to his feet and wound his arms about his face. The crowd yelled themselves hoarse in tribute to his courage.

Garrieau was upon him with a growl like a wild beast. Donald stood in the centre of the ring reeling drunkenly. Garrieau shot a terrific right for Donald's wind that struck his weakly protecting elbows. The impact carried him to the ropes, and he fell forward to his knees. Again the referee's arm rose and fell as he counted the seconds. Again Donald tottered to his feet to meet a fusillade of short-arm jolts that pierced his guard and sent him staggering.

The gong rang. With body swaying unsteadily and legs wavering, Donald walked to his corner and sank down heavily. What a blessed relief to lie and relax! His head felt leaden and there was a ringing in his ears.

His seconds worked over him in furious haste. Andy knew all the tricks of resuscitation: the upward sweep of hand on the mid-riff that brings the big nerve centre to life; the quick raising of the chest that brings air to the remote corners of the lungs. With a sudden choking in his throat, the little Australian realized that this boy was very dear to him. A prayer on his lips, his hands trembling, but sure and deft, he strove to restore the shattered nerves.

The colour came slowly to Donald's cheeks and the haze cleared away as the cold water was showered upon him. He felt his strength returning. A long deep breath and he was himself again. He looked across the ring at Garrieau, whose vulture-like manager was leaning over him with an exultant look on his face. This brute had deliberately fouled him. A cold and terrible rage swept through every fibre of Donald's being. He had demeaned himself by entering the prize ring. This was bad enough, but to lose the battle!—Never! He looked for his friends. Their faces, he saw, were tense and full of misery.

"Andy, I'm going after him," he declared in a hard voice.

Andy was about to remonstrate, but he caught a flash of the hard light in Donald's eyes, and the words died on his lips. He hesitated. Maybe he should have let Donald take the aggressive from the start.

"Are you strong enough, Donnie?" Donald's eyes held a dull glow.

"Yes!" he gritted.

Andy patted his arm as the gong

rang. "Give 'im 'ell, Donnie!" And then added reverently: "May God giv 'im strength."

Donald shot from his corner as though thrown from a catapult to meet Garrieau before he was fairly out of his chair. The spectators held their breath. Was this the man who a minute before had walked staggering and beaten to his chair? When the referee pried the fighters apart after a fierce mix-up in the champion's corner, a puffed eye and a bloody face showed that Garrieau had absorbed severe punishment. Donald was everywhere, dancing in for a fierce rally and out again, always without a return.

The arena fairly rocked to the cheers of the crowd as Donald stood in the centre of the ring and exchanged punches with the champion. Head to head they stood while Donald's arms worked with such lightning speed that the champion's blows were smothered. And, marvel or marvels, the champion was giving ground. The pursued had become pursuer. The tide had turned. With his arms wound about his face the champion retreated. As he essayed a lead, Donald's fist smote his face before he could again cover up. Following relentlessly, Donald penetrated his opponent's guard with rights and lefts until the champion's face was a smear of red.

A bedlam of sound came from the audience as they stood on their seats and roared their admiration for the challenger's wonderful exhibition. Andy, his face set, his eyes bulging, clung to the corner of the ring.

Garrieau drove heavily at his elusive foe and missed. The impetus swung him to one side. For an instant his chin was without the protecting shelter of his shoulder. With a bewilderingly swift move Donald stepped forward, pivoted on his toes, and with the full weight of his powerful young body behind it, he whipped his right to the champion's unprotected jaw. Plop! Garrieau fell upon his face and sprawled like a baboon on the floor. Donald walked to his corner, thrust his gloved hands towards Andy, who stood as though paralyzed, and said: "Take them off, Andy." His voice was audible throughout the arena. The referee rushed to Donald's side and raised his arm aloft in token of victory.

With a roar the crowd came to its senses to realize that the fight was over. Pandemonium broke loose. A struggling mass of humanity surged into the ring. Every man wanted to shake hands with the new champion. Garrieau, the possessor of the "punch" they had so much admired, was forgotten. The king is dead—long live the king! Such is life, especially in the boxing game!

CHAPTER V.

With much difficulty Donald and his friends forced their way through the cheering throng to the dressing-room. Weak and tired, Donald lay on a cot, while his handlers gently massaged his sore body. Andy moved to the cot and stood looking down on his protégé.

Donald opened his eyes. "Hello, Andy," he smiled weakly.

"Hello, Donald," said Andy huskily, as he patted Donald's dark head.

Donald's hand stole out to meet the warm clasp of his friend.

"Some little fight," said Andy, summoning a smile.

"Not bad," agreed Donald.

Gillis pulled his hat brim down over his eyes to hide his emotion. "I've a good mind to go out and give that brute another licking," he growled.

One of the promoters thrust his head through the door. "Come and get your dough!" he shouted.

"Strike me lucky!" returned Andy, "those words 'ave a pleasant sound. He picked up a small handbag and left the room. In a few moments he returned, his face beaming. He tapped the satchel. "Chuck full," he said happily.

At the gymnasium they gathered in Andy's room, and for the first time Donald told them of the attempted "frame-up" proposed by Garrieau's manager, Douglas strode across the room and gripped Donald's hand. Not a word was uttered by anyone, but the silence was more eloquent than speech.

They were all in a happy mood after the prolonged strain of the day. Andy was in particularly high spirits. "Gentlemen," he began grandiloquently, "I 'ave before me on the t'ble 'ere a most wonderful little 'andbag. All it 'ad in it this morning was a dirty collar and a shirt stud. Now," making a dramatic gesture, "it's the bloomin' 'orn of plenty!" He turned the satchel upside down and a mass of bills, coins and cheques fell upon the table.

"Ere, Gillis," cried Andy, as he selected a bill, "will you go out and get some champagne, and when you goes in the bar buy a drink for the 'ouse. Bring ginger ale for Donnie; 'is manager'll drink 'is share of the wine."

Badminton players find a drink of hot tea of great benefit after a strenuous game. In leading Badminton clubs of Canada, Red Rose Tea is a great favorite. No other tea offers such brisk, zesty flavor and rich quality. Put up only in bright, clean aluminum packages.

VITAMINS

Everyone needs them to support growth or to protect the body against germ-infection. Scott's Emulsion abundantly rich in vitamins is of great importance in all run-down conditions of the body. Scott's Emulsion builds strength.

Scott & Bowne, Toronto, Ont. 25-61

Andy sorted the money into piles and sat quietly counting for a few minutes. "Fifteen thousand and a few odd dollars," he announced. "What!" ejaculated Donald. He was astounded. He had given the size of the purse little thought. "I had no idea it would be so much," he said in a surprised tone.

"Oh, the boxin' gyme is a great gyme," said Andy. "Yes," remarked Douglas, "but after seeing that bout today I'm going to take up tidgilywinks instead; it's not so rough."

When the big man returned with the wine Donald turned to Douglas. "It seems that you and Gillis are old friends."

"Why, yes, Jack's been one of Dad's right-hand men for—how long, Jack?"

"About ten years," replied Gillis. "And I'm equally interested to know how you and Jack know each other so well," said Douglas curiously.

"I met Donald on the train comin' out," answered Gillis quickly.

"Come on, boys," cried Andy, "we'll drink to the new champ—to Donnie's health." Andy held his glass aloft. "Boys, I can't make much of a speech, as I 'ave only 'ad one drink. Stand up while we drink to our Donnie. I knows that 'e's goin' to leave me, and that 'e's goin' to give up the boxin' gyme. I knows that 'e isn't in the 'abit of mixin' with the likes o' me. I knows that I'm lucky to be blackin' the boots o' a man like 'im. But when I knows that 'e went into this fight to 'elp a poor little bloke like me out of an 'ole, I'm proud, boys, I'm proud! I've seen many a fight, and I've seen many a gyme man. But strike me blind if Donnie didn't this day teach me something about sheer grit. When 'e came stumblin' to me at the end of that—that third round—I—!" He stopped. "You know what 'appened," he continued in a husky voice. "I ask nothin' better'n to 'ave 'im for me pal."

"Ere's to the gymest man that ever stepped in shoe-leather! 'Ere's to 'im!" Andy turned away quickly to light a cigarette. His eyes were moist. The room was silent.

Donald was deeply moved by his little friend's show of feeling. Douglas broke the silence. "You got back to the Coast just in time, Jack." "How's that?" "Dad has started on the biggest job that he's tackled yet. "What is it?" "Do you remember the big tract of timber that he bought in the Cheakamus Valley?" "Yes, he bought on my advice," answered Gillis. "Well, he's going to run a railroad in and build sawmills, and saw the logs right on the spot instead of shipping them to the Coast." "Good!" said Gillis heartily. "There's a wonderful stand of timber in that valley."

"But here's the best part of it," Douglas went on eagerly: "Dad's going to send you in to cruise the timber around Summit Lake, and I'm to go with you. It's a wonderful country. I was up there last summer." He turned to Donald. "Will you go with us?"

"I'll be glad to," assented Donald. "Good!" cried Douglas. "It will be fine camping with you and Jack."

Little Andy sat patiently listening to this lively conversation, in which he had been completely ignored. He could contain himself no longer.

"I s'y," he blurted, "am I such a blinkin' dwarf that you've forgotten that I'm in 'ere crowd? Isn't me 'ead above the t'ble? Where the 'ell do I get off on this 'ere bloomin' picnic, I asks you?"

One look into the Australian's seriously comic face with its heavy blond eyebrows wagging up and down set Douglas into paroxysms of laughter. "Andy," he declared, "I'm going to take you along, even if I have to mark you 'excess baggage. Can you cook?"

(To Be Continued.)

Finances In Good Shape

Canada Now On Easy Street Says Hon. J. A. Robb

"We are on easy street," remarked Hon. J. A. Robb, Minister of Finance. Mr. Robb was discussing Canada's financial position. He pointed out that Canada had already retired \$22,000,000 of the \$53,000,000 short term bonds falling due October 15, and would retire the balance with cash from the Dominion treasury.

"We have sufficient money to meet the \$53,000,000 maturing," said Mr. Robb, "and some left over. We hope if providence continues kind to us and gives us good crops, and business keeps just as good as it is now without even getting any better, to take care of the maturities coming along from now until 1933. In 1933 we have some very heavy maturities of \$400,000,000, but I don't anticipate any refunding of major amounts before 1933."

Mr. Robb declined to predict or comment on the possibility of taxation reduction announcements in his next budget speech.

Canada's Exhibit Outstanding

Dominates All Entries In Imperial Fruit Show At Manchester

The Canadian exhibit dominates the show and is the best ever. This is the cable advice received by the department of agriculture from Manchester regarding the Canadian fruit exhibit at the Imperial fruit show. In sending the list of prize winners in the Canadian apple section J. Forsyth Smith, Canadian fruit trade commissioner in the United Kingdom and Europe, describes the show the best since its inauguration in 1921 and the Canadian exhibit as the outstanding feature of the whole show.

All parts of the Empire are represented.

In the Canadian section in the class for snow apples the first prize was won by Boyd Honey, of Abbotsford, Que. In the McIntosh class, first went to G. H. Hilliard, Kamloops, B.C. John Slayter of Gasperau, N.S., took second in the class for Cox's Orange Pippins and James Lowe, of Oiyama, B.C., won first for Jonathan, first for Newton Pippin, and second for Winter Banana.

Warning To Motorists

Coming Of Fall Brings Danger Of Closed Garage

Again with the coming of fall, the tragedy of the closed garage will be re-enacted in many a city.

It is unfortunate that this should recur, year in and year out, despite the education and repeated warnings broadcast to motorists. But somehow we grow lax during a pleasant summer, and we forget.

But let us not forget this time. Let us remember that the fumes that escape from the exhaust of our motors are deadly, so much so that only one part in 10,000 of pure air is said to be a hazard to life.

As the weather gets colder, it is becoming more difficult to start our cars. We start the motor within the warm, closed garage—and forget the danger that besets us.

Carbon monoxide gas is a treacherous poison. It strikes us without warning. We are used to the cars exhaust fumes, so we think nothing of smelling them. But in this exhaust lies our danger, unless we are alert to it.

Better back the car out of the garage if you must fuss over it. Or at least open the doors wide and see that they stay open.

A GREAT PUZZLE TO CAREFUL PARENTS

One of the greatest puzzles to the careful parent is to know just what medicine to give the little ones. When the child falls ill with griping pains; is seized with cold or fever, refuses food or vomits what he has taken, when he cries a great deal and cannot get the sleep so necessary to the growing child, the parent is in a quandary. What is to be done on such occasions? As often as not there is not a suitable medicine in the house. The puzzle is what to give him to set him right quickly.

It is to meet such emergencies that Baby's Own Tablets were designed. These pleasant little Tablets quickly reduce fever, break up colds, relieve constipation and indigestion and allay teething pains. They quiet the nerves and promote restful health-restoring sleep. They are guaranteed absolutely harmless and safe for even the youngest and most delicate baby.

Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

A judge had concluded a hearing with a terse decision: "Assault. Ten dollars."

Some days later the defendant, a mechanic, concluded some repairs upon the magistrate's car and rendered an equally terse decision: "Battery \$25.00."

Little Helps For This Week

"See that none render evil for evil unto any man; but ever follow that which is good."—1 Thessalonians v. 15.

The fairest action of our human life is scorn to revenge an injury: He who forgives without a further strife,

His adversary's heart to him doth tie; And it is a firmer conquest, truly said,

To win the heart than overthrow the head.

—Lady Elizabeth Carew.

Hath any wronged thee? Be bravely revenged; slight it, and the work's begun; forgive it, it is finished; he is below himself that is not above an injury.—Quarles.

A more glorious victory cannot be gained over another than this, that when the injury began on his part, the kindness should begin on ours. —Tillotson.

An Oil That Is Prized Everywhere.

—Dr. Thomas' Electric Oil was put upon the market without any flourish over fifty years ago. It was put up to meet the wants of a small section, but as soon as its merits became known it had a whole continent for a field, and it is now known and prized throughout this continent. There is nothing equal to it.

Scientist Makes a Strange Discovery

Convinced That Human Body Has Radio Tuning Point

C. R. England, a research scientist of the Bell Telephone Laboratories, New York, says that after extensive experiments he was convinced of the soundness of his theory that the human body has a radio tuning point. The tuning point of his body, he said, was 3.66 metres and was discovered accidentally while he was working on radio oscillators producing very short wave lengths, England explained.

Starting with five metres, he said he worked downward gradually and encountered difficulties when he went below four metres. A search for the cause disclosed that his body was working as a tuned circuit, he said.

Better keep yourself clean and bright; you are the window through which you must see the world.

Minard's Liniment Invaluable Everywhere.

Salesman—"This machine will cut your work in half."

Customer—"Let me have two."

Acid Stomach

Excess acid is the common cause of indigestion. It results in pain and sourness about two hours after eating. The quick corrective is an alkali which neutralizes acid. The best corrective is Phillips' Milk of Magnesia. It has remained standard with physicians in the 50 years since its invention.

One spoonful of Phillips' Milk of Magnesia neutralizes instantly many

times its volume in acid. It is harmless and tasteless and its action is quick. You will never rely on crude methods, never continue to suffer, when you learn how quickly, how pleasantly this premier method acts. Please let it show you—now.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

When your Children Cry for It

There is hardly a household that hasn't heard of Castoria! At least five million homes are never without it. If there are children in your family, there's almost daily need of its comfort. And any night may find you very thankful there's a bottle in the house. Just a few drops, and that colic or constipation is relieved; or diarrhoea checked. A vegetable product; a baby remedy meant for young folks. Castoria is about the only thing you have ever heard doctors advise giving to infants. Stronger medicines are dangerous to a tiny baby, however harmless they may be to grown-ups. Good old Castoria! Remember the name, and remember to buy it. It may spare you a sleepless, anxious night. It is always ready, always safe to use; in emergencies, or for everyday ailments. Any hour of the day or night that Baby becomes fretful, or restless, Castoria was never more popular with mothers than it is today. Every drugstore has it.

NON-STOP PLOWING

Non-stop records in flying, swim-
ming, dancing, piano-playing and
other activities have been given a
great deal of publicity of late, but
one of the most interesting as well
as useful tests of this nature to be
reported was a plowing record recent-
ly set at the farm operated by the
University of California.

In this test a tractor was run con-
tinuously for 17 days and nights,
drawing a disk plow, during which
time the outfit travelled 1,330 miles
and disked 1,280 acres of land. Dur-
ing the 408 hours of the test the en-
gine was never stopped, but the trac-
tor was halted 15 minutes four times
a day for re-fuelling and servicing.
Only one case of mechanical trouble
developed the loosening of a valve
push rod, but this was adjusted with-
out stopping the engine. During the
test 1,151 gallons of gasoline and
117 quarts of oil were consumed.

This demonstration may forecast
a marked change in farming of the
future, when mass production meth-
ods shall be applied to agriculture as
they have already been applied to in-
dustry.

CANADA-U. S. COMMISSION

An illustration of how many big
daily newspapers look upon con-
structive news is given by a recent
writer who recalls the rebuke given
to a reporter covering an interna-
tional conference in Honolulu last
summer.

One day the reporter thought the
proceedings of the conference of suf-
ficient importance to warrant a 600
word cable, even though no riot oc-
curred among the delegates. His
editor called him down, telling him
to cut dispatches short, "unless there
is a clash."

By reason of that attitude on the
part of the metropolitan press, the
work of the International Joint Com-
mission, created in 1911, consisting
of six representatives of the United
States and Canada for the purpose of
arbitrating disputes between the two
countries, receives little notice. The
Commission generally settles matters
without a clash. In fact among all
the questions dealt with by the Com-
mission the decisions have been un-
animous, except in only two cases.

Because of the quiet and harmoni-
ous manner in which the Commission
has performed its important duties
it is unlikely that very many citizens
of either country even know of its
existence. But its work has received
high praise from statesmen of
both countries and of Europe, where
it has been held up as a model for
international arbitration agencies.

REAL ACCIDENTS FEW

What are generally classed as ac-
cidents are in most case not ac-
cidents at all, but merely the results
of pure carelessness or recklessness,
according to a noted railway sur-
geon, who declares that really un-
preventable accidents are very few.

The greater number of accidents are
caused by failure to keep in mind
the consequences of a slight mistake
in judgment, or in "taking a chance"
even when danger is realized.

Of 25,000 deaths in the United
States through automobile accidents
each year, it is safe to say that 90
percent of them are due to some-
one's disregard of ordinary safety
precautions. The worst feature of
this is that a reckless driver not only
endangers himself but also trifles
with the lives of others.

In accidents due to fire the same
principle holds good. Everyone
knows how easily the careless throw-
ing of a lighted match may start a
disastrous fire, yet millions of light-
ed matches, cigar and cigarette stubs
are cast aside with little or no cau-
tion. Practically every fire that oc-
curs is caused by stupid careles-
ness.

Accidents do happen, of course,
under circumstances wherein no one
appears to be at fault, but these are
in the minority. Generally accidents
are caused by ignorance, careless-
ness or wanton disregard of con-
sequences.

GETTING INTO A RUT

Owing to the growing tendency

toward specialization in every de-
partment of human activity, it is be-
coming more difficult for the aver-
age man to keep in touch with what
is going on outside of his own imme-
diate interests. He becomes so en-
grossed with his special line of work
that he runs a great risk of getting
into a rut.

While the exactions of modern
business and professional life lead
necessarily to a high degree of spec-
ialization, they should not be per-
mitted to unduly restrict one's men-
tal horizon. Everyone should take
sufficient time to keep abreast with
important developments in the world
about him. By doing so he will of-
ten encounter ideas which will be of
practical benefit in his own sphere
of effort.

Above all he should lay aside rou-
tine duties frequently for the pur-
pose of indulging in systematic think-
ing. Many men are able to evolve
their best ideas in some quiet spot
away from the scene of their daily
labors.

Whatever may be the details of
any method adopted, a portion of
one's time should be devoted to sound
reading covering varied subjects.
Otherwise he will inevitably get into
a rut. And getting into a rut is bad
for his intellect and bad for his busi-
ness.

Here and There

(179)

The Canadian Pacific has decided
on a new ferry service between
Steveston, on the mainland, and
Vancouver Island, ac-
cording to Captain C. D. Nerutso,
manager of the B. C. Coast Steam-
ship Service. The new service will
begin early next summer, being in-
spired by the increased demand for
short water hauls.

Tourists to Victoria, the capital
of British Columbia, this year num-
bered 370,000, according to the Vic-
toria Publicity Bureau. Tourist
travel from Canadian points, and
from the west coast of the United
States to Vancouver Island and Vic-
toria, via the C. P. R. and the
coastal steamship service, show an
increase over last year.

New York newspaper cameramen
want cow-boys to do their stuff on
the parapets of sky scrapers and
are not content with ordinary por-
traits, was the somewhat bitter ob-
servation of Guy Weadick, manager
of the Calgary Stampede, who re-
turned to Canada recently from
participating in Tex Rickard's radio
in Madison Square Garden, New
York. "They wanted real action
for photographs," he said, "and we
had to lasso policemen from the top
of busses on Fifth Avenue to please
them."

Grain storage facilities of the
harbor of Vancouver, B.C., which
now exceed 10,000,000 bushels, will
be largely increased next season. It
is believed in view of the fact that
storage bins are already nearly full
and the westward flow of grain
may have to be reduced in conse-
quence. It is being reported cur-
rently that the Alberta Wheat Pool,
the Midland-Pacific Terminals and
other groups will add storage capac-
ity to existing terminal houses.

Over 175,000 trees have been
planted along the main highways of
the province of Quebec during the
past two years by the Forest De-
partment, in following out its em-
bellishment scheme, which includes
co-operation from residents along
the roads. "Since the beginning of
the season," states an official bulle-
tin, "the Minister of Roads has
been insisting on the importance of
beautifying roadsides. Tourists
can now travel throughout the pro-
vince on modern and perfectly
maintained roads."

"Canary Korndyke Alcartra,"
Holstein-Friesian cow belonging to
the herd of Ben. H. Thompson of
Boharm, Saskatchewan, has been
declared world's champion butter-
fat producer, according to an ad-
vice received by the owner from the
live stock commissioner at Ottawa,
stating that the cow has won the
world championship with an enor-
mous margin to spare. The re-
cord of Canary Korndyke Alcartra
for 305 days was 1,080 pounds of
butter-fat, or 108 pounds more than
any previous record holder. In
the 305-day period the cow pro-
duced 26,396 pounds of milk with
an average test of 4.04 butter-fat.

There is no doubt in the mind
of L. S. James, of New York, as
the New York Central Railway, as
to whether moose will attack hu-
man beings. Although the subject
is a controversial one among big
game hunters, decisive testimony
was afforded recently in the ex-
perience of Mr. James in the Meta-
gama district, lying between Sud-
bury and Chapleau in Northern On-
tario. He was paddling in his
canoe along the shore of the Span-
ish River and came upon a bull
moose unawares. The animal at
once gave chase and only by dint
of hard paddling by Pete Com-
mando, the Indian guide, were they
able to escape. Another canoe in
rear was similarly pursued.

Chandos Arms at Edgeware, the
second oldest tavern in England, is to
be closed after serving ale and lodg-
ing to travellers for nearly 800 years.

One kangaroo will eat as much
grass daily as six sheep.

Canadian Pacific Directors & Eastern Financiers Inspect the West

From left to right, front row—F. W. Molson, director; Sir Charles Gordon, president Bank of Montreal; Sir Herbert Holt, director C.P.R. and president Royal Bank; E. W. Beatty, chairman and president; N. W. Tilley, K.C., director; W. A. Black, president Ogilvie Milling Co. and director; Col. Henry Cockburn, president Cockburn Flow Co. and director.
Standing—Mr. Beaudry Leman, general manager Banque Canadienne Nationale; D. C. Coleman, Vice president Canadian Pacific western lines; Dr. W. W. Chipman, Montreal; James A. Richardson, director, Winnipeg; Ross H. McMaster, president Canada Steel and director; W. J. Blake Wilson, director, Vancouver; Hon. Smeaton White, president Gazette, Montreal. This group was photo-graphed at Banff Springs hotel.

One of the most outstanding groups of eastern business men that ever visited western Canada together accompanied Mr. E. W. Beatty, chairman and president of the Canadian Pacific on his recent annual tour over the company's western lines. The party which was representative of the financial and industrial activities of all Canada left Montreal at the end of August and spent a full month travelling about the country between Montreal and the Pacific coast.

The purpose of the tour was to become more conversant with western conditions and problems—and more particularly to visit The Peace River country, most of the party never having been there before.

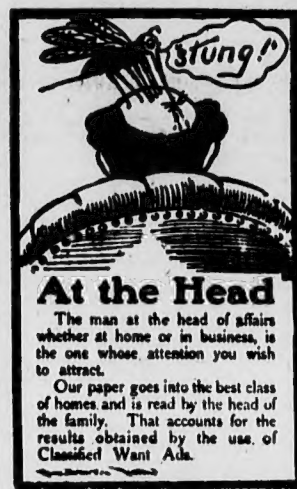

The party returned east with optimistic views re-
garding the entire country visited.

"I have never seen the country looking better at harvest time," said Mr. Beatty on his return, "and in all my experience I have not previously found so general a feeling of complete confidence in this country and its possibilities as was observed in the cities and districts where we made stops and had an opportunity of talking things over with their representative citizens. More than ever am I impressed with the potentialities of Canada's north land. I think it almost too much to say that Canada's future lies to the north and that the opportunities already discernible there are a challenge to the oncoming youth of the older parts of the country."

"We had an excellent opportunity of learning this," said Mr. Beatty, "during our visit to the Peace River country which most of us had not previously seen. As a result of that visit we have arranged to take over the E.D. & B.C. Railway, which arrange-

ment, I believe, will prove very greatly to the advantage of that country and the people who live there. "It is a beautiful as well as a fertile country," continued Mr. Beatty. "I can perhaps liken it best of all to some parts of old Ontario. It is a rolling country, in some places quite heavily wooded and much broken by lakes and rivers. The soil is generally a rich, black loam and highly productive, and although there is a steady movement of settlers into the area which will no doubt increase in volume as it becomes better known, its extent is so great that it must be years before the available land is all taken up. Our party took every advantage of the opportunities offered to see the country. We motored over three hundred and fifty miles of its excellent roads, and almost everywhere we found fine farms or newly broken homesteads and in some cases well settled communities having every appearance of prosperity. In town and country alike we met with a cordial welcome and I think our visit was taken as a friendly gesture of interest on the part of the East towards the new, far Northwest. We motored over the British Columbia border line as far as Rolla and as far north as Peace River Landing, and still feel we did but touch the edge of Canada's great north."

"It is hardly possible to say what the next few years will bring to that country, but we must recognize the fact that there is a new Canada being opened up well beyond what we have previously considered to be the northerly limit of habitation and production. We hope that we shall very shortly be able to go to work on the task of putting the E.D. & B.C. Railway into better shape to serve the communities it reaches. Much money will have to be spent in order to bring it up to standard and it will also take some time."

British Parliament Is Formally Opened With Colorful Ceremony

London, Eng. — Parliament was formally opened by the king with all the colorful ceremony surrounding the occasion. The session is the last before the next general election. In the speech from the throne, His Majesty expressed gratification at the signing of the anti-war pact, outlined a scheme for relieving agriculture, industry and railways of local taxes, a scheme for enabling railways to reduce charges on basic traffic and a plan to alleviate mining area unemployment by training 20,000 miners a year for agricultural pursuits in the Dominion.

The subsequent debate on the address in reply to the speech was featured by the attack of Rt. Hon. Ramsay MacDonald, Labor leader, on the Anglo-French proposals for further naval limitation. He termed it an "agreement not to limit armaments" and pressed Premier Baldwin for a full government statement on the present status of the agreement. The premier, however, pointed out the Labor party was to move an amendment censuring the government on account of the pact and therefore any government statement should be reserved for the debate on this amendment.

In the course of his speech, Mr. MacDonald mentioned the movement of miners to the Canadian harvest fields last August, saying he hoped future migration schemes would indicate more forethought than this one, whose workings he had personally seen in Canada.

"You didn't say that when you were over there," a Conservative member remarked.

Smith Will Retire From Public Life

Says Quarter Century Of It Has Been Enough

New York. — Governor Smith announces that he never again expected to run for public office as he had more than a quarter of a century in public life and that was enough.

The defeated Democratic presidential nominee expressed this view at a conference with press correspondents.

"I certainly do not expect to run for public office," he said, in reply to a question. "I have been in public life for a quarter of a century and I have had all I can stand of it. As far as running for office again, that's finished."

The governor said he had no regrets and nothing but pleasant memories over his unsuccessful campaign.

"The American people have rendered their decision," he said. "I am a Democrat and I firmly believe in the rule of the majority."

Prosperous Canada

Hon. Peter Heenan Sees Evidence Of Prosperity Everywhere

Toronto. — With evidence of prosperity everywhere apparent Canada is just coming into her own, declared Hon. Peter Heenan, minister of labor, at a meeting here.

Mr. Heenan discussed briefly the question of immigration and old age pensions. The former subject he stressed two considerations as of vital importance in any policy which might be framed, namely to give preference to Britishers and to give only truthful information to those intending to settle here.

The country could have no worse advertisement than to have immigrants write back "home" and say that conditions have been misrepresented to them, he said.

The minister was high in the praise of old age pensions legislation and declared his intention of speaking "up and down the country" until it had been adopted by every province.

Losers Valuable Horses

Toronto. — Three champion hunters and five young horses which were about to be trained for the saddle, were suffocated when a fire broke out in a stable here. Five of the horses belonged to D. McGregor, well-known Toronto horseman. The champions were Fairplay, Aristocrat, and Slipper. The animals were valued at approximately \$10,000.

Will Receive Reward

Montreal. — To anyone who furnished information aiding the police to arrest and convict a hit-and-run motorist, the province of Quebec will pay a reward of \$100.

N. W. U. 1759

Make Arrangements For Important Conference

Agricultural Leaders and Canadian Chamber Of Commerce To Meet In Toronto

Montreal. — The conference which agriculture leaders with the Canadian Chamber of Commerce is arranging for November 27, in Toronto, promises to be an event of economic significance and a forward move in the effort which the chamber is making toward the co-ordination of agriculture and the other business interests of Canada, said Dr. John W. Ross, chairman of the executive of the Canadian Chamber, here.

The invitations which have been issued to each of the heads of the provincial departments of agriculture and to the department of agriculture of Ottawa to participate in the round-table conference have in each case been accepted, said Dr. Ross.

Although no set speeches or papers were to be prepared, the agenda would include a frank and friendly discussion at the conference itself on such subjects as the service which could be rendered the agriculturist through showing him the value of reducing production costs, more efficient farm management, better marketing methods, wider markets and reforestation, and a setting-up of a national agricultural committee of the chamber to advance agriculture in a business-like way.

Navigation Through Hudson Straits Closed

Dispatch From Fort Churchill Indicates Harbor Is Frozen Over

Ottawa. — Navigation through the Hudson Straits is closed for the winter, it was learned at the Department of Marine by wireless dispatch from Fort Churchill, which indicates that the harbor is frozen over and there is ice as far as the eye can reach. As a result the ice breaker Montcalm has been ordered to return to Quebec City from Port Burwell.

For several months the Montcalm has been carrying on ice observations in the North and is the last ship to leave Hudson's Bay.

There is no ice in the straits themselves, it was stated. With the closing up of the harbor at Churchill, however, the work of the Montcalm is completed.

Several men are remaining at the various radio stations throughout the straits and will continue sending reports on ice and fog conditions.

Mount Aetna In Eruption

Molten Lava Pours Down On Towns In Sicily

Catania, Sicily. — A stream of molten lava pouring from Mount Aetna was sweeping through the town of Mascali and the fertile countryside, leaving destruction in its wake.

The lava struck the town of 10,000 inhabitants just after the townsfolk had finished celebrating the feast of their patron saint, Leonardo, whose statue was carried on the shoulders of four old men.

Moving forward, crushing houses, vineyards and rich farm lands, the main lava stream had joined with several others from the crater and was nearly 14 feet thick and more than a mile wide. Houses crumbled under the intense heat before the lava reached them and trees were withered and destroyed while the stream was still one hundred yards away.

Storm Sweeps Alaska City

Thirty Thousand Dollar Property Damage Reported At Cordova

Cordova, Alaska. — Property damage estimated at \$30,000 was counted following the worst storm in the history of the city. The greater part of the damage was to the new school building. The roof was blown off, and torrential rains poured into the unprotected building, ruining every room. Flying wreckage from the building broke hundreds of windows.

The wind tore telephone poles from the ground and took the front off a hotel building.

Big Sum For Charity

Montreal. — Montreal's federated charities campaign to raise \$600,000 to assure budgets of 32 welfare societies was successful. The total realized was \$639,327.67.

HERBERT HOOVER IS ELECTED NEW U. S. PRESIDENT

New York. — Republicans have swept the country from coast to coast. They have enveloped the states bordering on the old solid South. They have driven a wedge into the South itself.

Herbert Hoover has been elected to the presidency in one of the most sweeping landslides ever recorded.

By one of those extraordinary ironies of politics, it was Governor Smith's own state of New York which first wrote his doom. On four occasions New York had given Smith the highest office in its gift. To capture New York state and its 45 electoral college votes the Democrats fought bitterly and strenuously.

Hoover might have lost New York state and still won the presidency; Smith had to win New York state if he was to be the next president of the U.S. New York was to be the nucleus of a Democratic raid into the states of New England and the Atlantic seaboard.

New York City gave its plurality to Governor Smith but the upstate Republican vote rolled over it. With 275 districts missing out of 8,267, Hoover was 90,000 ahead.

Democrats, however, found some bright spots in the New York state returns. Franklin D. Roosevelt, who nominated Smith, at Houston, was elected to the governorship over Albert Ottinger by a margin that showed him running well ahead of the Democratic National ticket.

Washington, D.C. — President Coolidge sent congratulations to President-elect Hoover and Vice-president-elect Charles Curtis. His message to Hoover read:

"The success of our party with your election to the presidency and the endorsement of the administration are a great satisfaction to me. With this endorsement I can now retire from office in contentment. I send you my most cordial congratulations on your victory, and to yourself and Mrs. Hoover my best wishes, in which Mrs. Coolidge joins."

Find Oil Shale In North

New Discoveries Are Reported Near Hudson's Bay Junction

The Pas. — Mining men in The Pas district are much interested in reports from Hudson's Bay Junction, Sask., indicating new finds of oil shale 25 miles southeast of that village.

The discoveries have been made in the old Porcupine Hills forest reserve and are close to the Manitoba boundary. Geologists representing a Toronto engineering company have been on the field for some weeks.

Oil shales found in the new area are reported to have a greater potential value than the discoveries made in recent years in The Pas hills north of the junction. Tests made of oil shales west of The Pas have been interesting, but no effort has been made to produce oil in that area.

Many Labor Candidates

London, Eng. — Right Hon. Ramsay MacDonald, leader of the Labor party, has announced that the party had decided to fight every seat where it had local party organizations prepared to run a candidate at the forthcoming general elections. He estimated that the party would have 600 candidates in the field.

FAVORS NORTHERN AERIAL ROUTE

Vilhjalmur Stefansson, the explorer, now touring Canada, who predicts that Canada will be the crossroad of the air between Europe and the United States. He says that if trans-Atlantic fliers desire to avail themselves of the shortest course between Europe and the United States, they must fly across Canada. This, he said, would entail flying over Arctic ice and he declared that the northern route was much to be preferred.

Russia Needs Wheat

Will Soon Be Placing Orders With Canada Is Report

London, Eng. — A possibility of further orders for the Canadian Wheat Pool from the Union of Soviet Republics has been reported by The Morning Post, which says this is the impression of grain brokers on the Baltic Exchange.

According to the newspaper, information secured by brokers in Britain from travellers and sea captains leads them to believe that the situation in Russia is far worse than generally reported and that the Soviet will resume buying wheat from abroad as speedily as possible before ports become frozen.

In this connection it is recalled that Russia bought 200,000 tons of wheat early this year, following which order there came a lull. The object of this buying is now attributed to a desire to force the hands of the rich peasants, who were withholding stocks. In the present case, however, a serious shortage is believed to exist. How far the convictions of these brokers are justified, it is impossible to tell, and so far there has been no definite indication that Russia is going to resume buying. Nevertheless, The Morning Post is apparently convinced.

Manitoba Wheat Pool Meeting

Brandon, Man. — Three hundred delegates together with a large number of visitors attended the fifth annual meeting of the Manitoba Wheat Pool held here under the chairmanship of Colin H. Burnell, president of the Pool. The directors' report was favorable though it was pointed out that the crop had been somewhat poor both in grades and quantity obtained, particularly in the oats.

Would Safeguard Lake Shipping

Ottawa. — Representations have been made to the various steamship companies operating in the Great Lakes and to others interested suggesting that "in the interests of safety" the period of navigation in these waters should close either on December 5, or December 7, declares Alex. Johnston, deputy minister of marine and fisheries, here.

PLENTY OF ROOM IN CANADA

For the wives and families back in the homeland it is often a story of patient waiting while the husbands and fathers win a new start in the Canadian west. But the re-union is happy and the future bright when they are once more joined in the new home. Here is a group comprising two families of Swedish colonists, Mrs. Eriksson with her family of ten children and Mrs. Siden with five children, who have just been sent forward by the Canadian National Railways' Colonization Department and the Swedish-American line, to their husbands at Junkins, Alberta, one of whom settled here in 1925 and the other last summer. The statement is made that many more Swedish families of this fine type are expected to follow.

Experimental Coal Shipments

Unable To Give Definite Figures On Transportation Costs Until Next March

Ottawa. — Actual transportation costs of the experimental shipments of Alberta and maritime coal to central Canada came before the board of railway commissioners here. The hearing was adjourned sine die on representations of the Canadian Pacific and Canadian National Railways that definite figures on the cost of these trial movements would not be available until March next.

The sitting was in conformity with orders-in-council passed by the Dominion government last spring authorizing reimbursement from the federal exchequer to the railway companies for any losses entailed in the \$6.75 per ton rate from Alberta to Ontario and the one-fifth of a cent per ton mile reduction in the westward haul of maritime coal. The trial movement authorized covers a period of three years.

Alberta Looks Westward

Hope Of People Lies In Development Of Pacific Says Premier

Vancouver. — "Today the face of Alberta is turned Westward instead of Eastward; prior to 1923, Alberta looked down the narrow strip of steel rails that led to Fort William and other Eastern centres. Today Alberta is looking to the Pacific and the hope of the people lies in the development of the Pacific and lies there almost entirely."

This was the statement of Premier J. E. Brownlee, of Alberta, in an address before the Vancouver Canadian Club in which he reviewed the progress of his province in the last twenty years and expressed its aspirations for the future.

Chief Of Staff To Retire

Major-General Thacker Will Retire On Pension At End Of Year

Ottawa. — Major-General H. C. Thacker, chief of the general staff, department of national defence, will retire on pension on January 1, next. The retirement of Major-General Thacker follows completion of thirty-five years in the permanent force. Official announcement to this effect was made by Hon. J. L. Ralston, minister of national defence.

Major-General Thacker will be succeeded as chief of the general staff by Brigadier-General A. G. L. McNaughton, at present district officer commanding military district No. 11 at Victoria, B.C.

Has Indian Ancestors

Next Vice-President Of United States Is Part Indian

New York. — Charles Curtis, next vice-president of the United States, has, through his mother, both French-Canadian and Indian blood.

His mother, Helene Pappan, was the youngest daughter of Louis Pappan, a French-Canadian fur trader who settled among the Indians of the Kansas tribe, and Julie Gonville, who was one-half Indian and a direct descendant of two famous chiefs, White Plume, chief of the Kansas tribe, and Pawhuska, chief of the Osage tribe.

Mr. Curtis is therefore one-eighth Indian.

Labor Meets Reverses

Party Failed To Gain Much Success In Scottish Municipal Elections

Edinburgh. — Labor after widespread victories in the English municipal elections staged a keen fight in the Scottish municipal elections, but failed to gain much success.

In Glasgow, Labor made a net gain of one seat. Elections in Edinburgh, Aberdeen, Dundee and Greenock resulted in gains of three seats by the moderates, who have majorities in a large number of places.

The moderates also captured four seats, two each from Labor and Communists—at Lochelly in the heart of the Fife coal fields.

Calgary District Income Tax

Ottawa. — In the last fiscal year, when Edmonton was included in the Calgary district for income tax purposes, the total payments, according to detailed figures just published, were \$667,086. The salaried classes paid \$253,719, and farmers paid \$42,200.

Abandons Irish Channel Swim

Donaghadee, Ireland. — Mercedes Gleitz, London swimmer, failed in her attempt to swim the Irish Channel on account of the rough sea. When forced to abandon her attempt she had covered 10 of the 22 miles in three and one half hours.

Western Farmers May Decide To Enter The Milling Business

Prevention Of Tuberculosis

Changes Are Foreshadowed In Methods Used To Curb Disease

Toronto. — Various changes of sweeping character in the methods employed to curb tuberculosis throughout Canada are foreshadowed as a result of the study of European methods made by 32 Canadian doctors, including Dr. J. H. Elliott and Dr. Dobbie of Toronto.

One of the possibly outstanding changes will be the development of a Dominion department to have control of tuberculosis prevention work throughout the Dominion, and another equally important innovation probably will be legislation providing for substantial grants for the carrying on of the work.

Entire Family Die In Fire

Bridgeport, N.S. — An entire family of five persons was wiped out in a fire at South Congerall near here. The dead: Albert Nash, his wife, two children, Annie, 14, and Viola, 11, and Eli Nash, brother of Albert. The tragedy was discovered when a neighbor saw smoke arising from the Nash farm.

SUNDAY SCHOOL LESSON

NOVEMBER 18

PAUL'S EXPERIENCES IN JERUSALEM

Golden Text: "Be strong in the Lord, and in the strength of His might." — Ephesians 6:10.

Lesson: Acts 21:17-23:35. Devotional Reading: Ephesians 6:10-20.

Explanation and Comments

Paul's Request, 21:37-39. — Read the earlier verses of this chapter. Paul is standing on the stairway leading from the outer court of the temple up to the Tower of Antonia, and before him is Claudius Lysias, chief captain of the band. "May I say something unto thee?" courteously Paul asked, speaking in the Greek language. If surprise Lysias asked in his turn, "Dost thou know Greek?"

"And was it not a needless surprise? Paul was a university man. He was cultured to his finger tips. He had one of the greatest brains of history. We all often reproduce the role of the Chief Captain. We were amazed how well read and intelligent was that unassuming man. But our surprise was needless. Assumption is not culture. The spiritual quality of men and women often surprises us. We say, 'I never thought that man was such a Christian.' 'I never dreamed that woman could have been such a heroine amid sorrow.' But we did not know them any more than Lysias knew Paul. And we did not know their inner life of devotion to the Saviour of the world. We knew not their prayers, their unseen sessions with their Bible, their gracious investiture with the Spirit of Christ."

"Dinadale T. Young. "Give me leave to speak unto the people." This was Paul's request of the Chief Captain. "Get me safely out of this, away from this mob," would have been the anxious plea of most men in Paul's position, and perhaps it was surprise which led Lysias to allow Paul to speak to the howling Jews below him.

"Great duties are before me, and great songs; And whether crowned or crownless when I fall, It matters not, so as God's work is done." — Alexander Smith.

Paul's Address, 21:30 to 22:21. — Then Paul, torn and bleeding as he was, and chained to two soldiers, stood upon the stairway above that howling mob who were thirsting for his blood, himself perhaps the only calm man there, and addressed them in their own language, Aramaic, a dialect of the Hebrew. He defended himself from the charge that he was an enemy of the people of the law, and of the temple. He told them that he was an Israelite, and though born in Tarsus he had been educated in Jerusalem, at the feet of their famous rabbi Gamaliel. He had been most zealous in persecuting the Christians, had even started for Damascus with letters from the Sanhedrin allowing him to seize and bring back in chains all the Christians he could find. Many of those to whom he was speaking must have known and recalled these facts.

Next, he wished to defend his Christian faith, and he told them about his wonderful conversion, about his interview with Ananias and the restoration of his sight, and about his return to Jerusalem and his baptism. If the Crucified Jesus had appeared to him in such power, then he must be the Messiah whom he, as a Pharisee, had so longed to see; and if the risen Jesus is really the Messiah, then Paul must as a righteous Israelite, yield him willing obedience and bear his witness for him.

Yet another aim had Paul, the aim of all his preaching; He would win even that mob over to a favorable opinion of this Jesus who could change in a moment of time a bigoted Pharisee into an active Christian. And finally, he justified his work among the Gentiles as the fulfilling of the express command of his Lord.

Saskatoon, Sask. — "I think the present grading system is plain, unvarnished robbery," was the answer of George H. Williams, vice-president of the United Farmers of Canada, Saskatchewan section, when asked for his opinion regarding the grading problem.

In the course of the interview Mr. Williams foresaw the day when the farmers, co-operatively, could mill their own wheat and thus gain complete control of their produce.

"The grades now current in the country to the farmer are to my mind a fitting climax to that short-sighted campaign which was carried on by certain newspapers during the summer months, enlarging upon crop prospects and sending out crop reports seemingly limited only by imagination, which undoubtedly went a long way toward producing a bearish market," Mr. Williams said.

"The present low grades are just putting a finishing touch to it," he continued, "they are taking out of Western Canada millions of dollars which rightfully should remain with the people of Western Canada."

"Do you think the elimination of mixing at the private terminals will solve the problem?" Mr. Williams was asked.

"That brings us to the question of the commission which has just been appointed," was the answer. "It is a pleasure to notice that both our federal and provincial governments are deeply concerned as to the grade of wheat that the British miller is getting under the present mixing system; and to note also that the Saskatchewan government has appointed a commission to investigate the marketing of wheat, the personnel of which ought to satisfy the farmers of Saskatchewan."

"You have asked me, do I think the elimination of mixing will cure all the grading problems. Very frankly, I do not, and I hardly think anyone expects it to. It will, however, remove one of the outstanding evils of the grading system. But to find a cure we must go considerably further."

"Taking the name of the newly appointed commission as an indication of its scope, I would imagine that its investigation would go considerably further than the mixing of wheat in the terminals. Personally, I am of the opinion that the average farmer is worried far more at present over the grade he is getting for his wheat than he is over the 'British miller' grade."

"The elimination of mixing would undoubtedly give the miller a fair standard to purchase by and to a certain extent it would relieve undergrading in that the present mixing system tends to tempt elevator companies to purchase wheat at a low grade in order to make large mixing profits. It certainly will not, however, do away with undergrading completely."

"No system of grading based on the appearance of wheat can result in anything but injustice under certain crop conditions. I find myself this fall in company with thousands of other farmers in just this position. Wheat which yielded well over 30 bushels per acre, weighing over 60 pounds to the bushel, containing some green kernels and a slight amount of frost, grading as number 5—a very low grade and at a very low price."

"Yet, I am convinced from the results of tests made by Dr. Burchard, that the flour milled from this wheat will be sold to the consumers, including myself, as grade one flour. It must be apparent to all that wheat graded on appearance only, is not going to solve the problem confronting the wheat grower of the west even if mixing were eliminated."

Asked what then was his solution of the problem, Mr. Williams replied: "I must confess, in my opinion the solution of the grading problem lies in placing the farmer in the position where he can dispense with it entirely. In other words, place the farmer in a position where he can control his wheat from the time he harvests it until it reaches the consumer in the form of flour."

"Do you think the pool should go into the milling business," the reporter asked Mr. Williams.

"Eventually, I think, the pool will have to go into the milling business," he replied.

Wreath For Unknown Soldier

Toronto. — The Toronto poppy fund committee intends to send a wreath to Westminster Abbey to be placed on the tomb of the unknown soldier.

The Safe Way

THE home is no place for valuable papers—neither is your office. For a small sum, you can have the protection of a Safety Deposit Box behind the steel doors of our vault.

Your personal inspection is invited.

The only safe place for wills, bonds, stocks, deeds, policies, family papers, small jewellery, etc.

GLEICHEN, - ALTA.

RED CLOVER IS A
PROFITABLE CROP
BROUGHT \$166 AN ACRE

Returns of \$166 an acre were secured this year from fifty acres of mammoth red clover grown by James Bolinger, who lives southeast of Brush in Morgan county, Colorado and is the father of Hugh Bolinger who formerly resided at Gleichen.

In the fall of 1927 Mr. Bolinger planted fifty acres to barley and seeded ten pounds of mammoth red clover seed with it using the barley as a nurse crop.

After the barley was harvested with a yield of eighty-four bushels an acre the ground was irrigated and pastured in the fall.

This year the first crop, cut for hay, yielded two tons an acre which at the present market price is about \$12 a ton. The second cutting was saved for seed. The yield was 318 bushels of clover seed. Retreshing produced 32 more bushels of seed.

The total yield of 350 bushels of seed at \$20 a bushel brings the value of the seed crop of \$140 an acre and to this is added the value of the first crop of hay of \$24 an acre. In addition the fall pasturage in 1927 is valued at \$2 an acre, making a total yield of \$166 an acre.

Mr. Bolinger is planning on feeding the threshed straw to livestock by mixing it with beet molasses. Gleichen folks should remember this land in Colorado sells at 400 an acre.

ST. ANDREW'S CHURCH SERVICES

Rector, Rev. John R. Davies.
Holy Communion 9 a.m.
Sunday School 11 a.m.
Vernacular 7:30 p.m.

The main topic now is the Old-Timers Ball on Dec. 7th.

The opening dance of Living Spring School will be held on Friday, Nov. 23rd. A good time is assured.

The ladies of the Gleichen United Church Circle announce their annual Xmas. sale of work will be held Saturday, Dec. 1st.

Being twins sometimes has its advantages. Mark and Clark O'Connor, Clumbus, O., twins, were sentenced to jail on different charges. Then it was found that names and offences had been mixed up on the records. After futile attempts to get matters straightened out the judge got disgusted and turned both of them loose.

Town & District

Get your luncheon ticket tomorrow sure.

H. W. Marcellus' advises on Xmas. cake in this issue.

Remember the Gleichen Community Hall Association annual meeting tomorrow night.

A number of the young people have enjoyed skating on M. Bollinger's slough east of town.

At Calgary for hold-ups a jail sentence is accompanied by the lash. The latter should help some.

Be at the annual meeting of the Gleichen Community Hall Association tomorrow night—Thursday.

Chris. Bartsch has returned from a business trip to Montreal, Toronto, Windsor and other eastern points.

Ramsay Mercantile Ltd., has opened up a full line for Santa Clause. Now is the time to make your selection and see what you are getting.

The number of tickets is limited to be sold for the luncheon next Monday and must be obtained not later than tomorrow—Thursday.

Monday night Master Tom Downey fell off a step and broke his thigh. He was taken to Bassano on a freight train to have the limb X rayed.

All will be pleased to learn that the baby of Rev. and Mrs. Davies is now improving nicely. He was very ill for several days and now has a mild attack of diphtheria.

Rev. and Mrs. Corcoran spent a couple of days in Olds last week where they went to attend the funeral of a friend, returning home to Gleichen Friday.

Everyone will be pleased to learn that Master Arthur Clifford is now announced out of danger by the several doctors who have been attending him at the Banff Sanitarium.

The friends of Mrs. H. H. Hall are pleased to learn she has returned to Gleichen and is improving nicely from a surgical operation she underwent at the Bassano hospital.

With the ever increasing demand it is high time a magistrate was appointed at Gleichen, more especially as Calgary is making a determined effort to drive the criminals from that city and many are sure to drift this way.

The Women's Auxilliary of St. Andrew's Church will hold a sale of fancy work and home cooking, and also serve afternoon tea in the Gleichen Community Hall on Saturday, Dec. 15, at 2 p.m.

Tommye Plante, has returned from a trip of inspection in the Peace River country and now wants to buy a farm near Gleichen. Wood-chopping is not among his accomplishments as a farmer.

Dr. E. H. Erickson has opened an office in the Post Office Block and is already busy. He came here from Banff, where he was engaged in the Banff Sanitarium Hospital and previously was engaged in hospitals in Eastern Canada.

The Georgian Singers last Wednesday night gave Gleichen folks one of the greatest treat ever in this town. and it is to be very much regretted that they were not greeted by a full house for it can hardly be expected they will return here again as they are in great demand

Every editor an expert. The departments of the Family Herald and Weekly Star, Montreal, are all headed by men of practical experience and nation-wide fame—that's why it's first in public esteem. The subscription is only \$1 a year or three years for \$2.

Alberta's 1928 wheat crop is placed at 147,566,000 bushels or an average of 22 bushels per acre from the acreage sown in the province, in the crop estimate issued by the Dominion Bureau of Statistics during the past week. This figure compares with 171,286,000 bushels as shown in the final estimate of the 1927 crop. A considerable reduction from the earlier estimates of the yield in the western provinces has been made as a result of the frost injury to the crop. Alberta's average wheat yield compares very favorably with that for the whole Dominion which is placed at 22.5 bushels per acre.

is already on at the Ramsay Mercantile Ltd. and the firm's stock of Fancy Goods is now on display.

Immense range of Ladies Handkerchiefs, individual or boxed. Silk Scarfs, Gloves, Beautiful Silk Underwear, Silk Hose in a wonderful selection. Fancy Dress Material, etc. Toys for the kiddies are now open and we can solve this holiday problem for our customers.

A NEW DEPARTMENT

This year we have added to our Xmas. Line a very heavy stock of Robertson's Fancy Chocolates, packed in beautiful cartons of from one to five pounds. Without exception the finest display of Xmas chocolates ever attempted in Gleichen. See these.

BECAUSE IT PAYS

The one great reason for having a Farmers' Company is that it pays farmers to have it. And the one great reason for using the Farmers' Company elevator is that it pays to use it. Long experience has proved to farmers that it does pay to have a Farmers' Company and that it does pay to make use of it.
